CATTLE DIRECTORY

2018-2019 North Dakota Cattle Directory, Issue 13

Published in January 2018 by the
North Dakota Stockmen's Association
407 S. 2nd St. • Bismarck, ND 58504
(701) 223-2522 • Fax (701) 223-2587
nds@ndstockmen.org
www.ndstockmen.org

The Purpose

The North Dakota Cattle Directory is produced by the North Dakota Stockmen's Association once every two years to help promote the excellence of the state's cattle and related livestock businesses. It is our sincere wish that this publication will help introduce cattle buyers to cattle producers and other agribusinessmen and women while enhancing the awareness of North Dakota's superior genetics across the state, country and world.

North Dakota Stockmen's Association

For more than 88 years, the North Dakota Stockmen's Association has been protecting the interests of the state's cattle producers. The NDSA is the state's spokesperson for the beef cattle industry – a voice heard through the halls of the State Capitol to the state's farms and ranches and all the way to Washington, D.C. It can and does work 365 days a year for cattle producers. Nearly 40 unpaid officers and directors, as well as a dedicated office and field staff, work on their behalf. For membership information, call (701) 223-2522 or visit www.ndstockmen.org.

When it comes time to gather your genetics,
gather them at *Leland Red Angus!*

WFL Merlin 018A (#1628086)
Recently leased to Genex CRI, Merlin promises to become a standard for the genetic traits cowmen want: calving ease, growth, carcass, easy fleshing, quiet disposition, structural soundness and super udders.

3SCC Domain A163 (#1619642)
A Genex sire with high indexes and proven calving ease, fertility, stayability and carcass values as well as shape and dimension.

3SCC Dictate C74 (#3468924)
A model for deep thick cattle that grow and still have exceptional calving ease. Pictured as a 2-year-old at the end of a hot dry breeding season, Dictate's progeny are standouts in a competitive class.

IT IS AN EXCITING TIME TO BE SIMMENTAL

Members of the beef industry have a lot to say about **Simmental** and **SimAngus™**. This feedback is invaluable and tells us that **Simmental** is headed in the right direction. **ASA's** focus on profitability through science means that we will continue to put our customers' best interests at the forefront of everything we do.

Want To Get Your Cattle **SOLD?**

The **Angus Journal®** is the leader in marketing and communications services. Let our team of experts create a marketing program that can get your Angus genetics and agricultural services **SOLD!**

Angus Journal® With more than 13,500 subscribers, *Angus Journal®* is the official publication of the American Angus Association®. The audience is a solid core of loyal readers who don't just read the *Journal* every month — they study it. With more than a half century of commitment to the beef industry, the magazine is the most effective venue for advertising leading Angus genetics across North America.

Angus Beef Bulletin® With a readership that exceeds 60,000 commercial producers using Angus genetics, the *Angus Beef Bulletin®* is one of the most popular beef industry publications. This savvy, informational tabloid is your best bet to reach thousands of commercial buyers of Angus genetics. Published five times a year, it's in the mail in time for bull-buying seasons.

Web Services Offers a wide array of Internet services to help you promote your farm or ranch, breeding program, cattle sale or show. Specialties include: web site design, searchable and "posted as printed" online sale books, e-List ads, banner ads and online coverage of major beef industry events. Angus breeders, associations, feedlots and other related ag industries are tapping Web Services to expand their marketing efforts worldwide.

Special Services The industry's leading print production team. Whether you need a sale book, brochure, postcard, show book or newsletter, our team of professionals is ready to help. We also provide a mailing list service through which you can reach your targeted audience.

Creative Media Is devoted to helping you more effectively market your seedstock through video, photography and marketing communications. We are ready to help you develop tools to connect with your customers and stay top-of-mind in the marketplace.

THE POWER OF **BLACK.**
ONLY BETTER.

HEREFORDS – THE EFFICIENCY EXPERTS

Adding Hereford genetics to your herd makes perfect business sense in a cost-driven economy. Excellent conversion, hardiness, fertility, longevity and even disposition can help reduce input costs. These Hereford efficiencies are ideal for your herd, your business and your plans for the future. Low-maintenance cattle, long-term profit. Now that's power.

DON'T BOTCH WITH A BLOTCH

10 TIPS FOR A CLEAR, READABLE BRAND

1) Enlist an experienced crew. Even the best brand can be ruined if the iron is applied incorrectly. Those with the most experience should be the ones handling the irons.

2) Heat irons until they are wood-ash gray. Irons will turn this color when they are at the optimal temperature for branding.

3) Keep the hides dry. Branding irons work best on dry hides.

4) Clip the animal before branding when practical. Clipping the hair where the brand goes before applying the iron will help you yield a clear, crisp brand.

5) Apply the iron only until the hide is buckskin color. Less exposure will not burn deep enough. Longer exposure will cause the heat to erode the boundaries, blotch and blister. If you notice blisters immediately after you brand, you are holding the iron to the hide too long.

6) If the animal moves before you are done branding, reapply the iron. Instead of holding the iron in place and smearing the brand, give the animal a moment to relax and try again.

7) Keep the iron clean. Irons can build up layers of charred hair and debris and compromise the crispness and cleanness of the brand's lines. Periodically cleaning the iron with a wire brush will help.

8) Use the appropriate size iron. There are no legal requirements dictating the size of branding irons you must use, but the NDSA generally recommends that, for older animals, characters are at least 4 inches in length and have a 3/8-inch face. For calves, a 3-inch-character iron should be adequate, unless it has many intersections and small spaces.

9) If you brand on the hip, keep the brand up high. When you register a hip brand, you have the right to the whole hip. Avoid placing your brand low on the leg, where it is hard to read and is easily covered.

10) Consider the likelihood of blotching before you register a brand. Because of their intersecting lines, brands containing Bs, 8s and Rs are most susceptible to blotching because there is so much heat concentrated in a small area. Therefore, select brands carefully. What looks nice on paper may not look so nice on a hide.

Backgrounding ❖ Finishing ○ Financing ⌘ Performance Data ● Carcass Data

TIME IS TICKING.

Livestock sellers have
15 DAYS
to provide purchasers a bill of sale.

It's the law.

Any person willfully violating this law is guilty of a class B misdemeanor for a first offense and a class A misdemeanor for a second or subsequent offense.

PROTECTION From Declining Market Prices

Use **Livestock Risk Protection (LRP)** insurance to protect your cow/calf and feeder cattle operations from declining market prices. Farm Credit Services has been offering LRP since its inception in 2004. LRP allows you to lock in a profit for a low, federally-subsidized, fee.

Premium rates, coverage prices and actual ending values are posted on-line daily at:
www3.rma.usda.gov/apps/livestock_reports
